Bangalore
4/8/01

My dear Jones

Of course you know there is another case of plague in the D. S Lines what would you say to running up a couple of Isolation sheds like those in the segregation camp at Mysore with pucka floor that could be disinfected. A tent is not suitable for a disease spread like plague and it will be difficult to disinfect. I saw the O.C. yesterday and asked him to make his officers responsible to report all cases of fever at once to the M.O. who or the midwife could go & see what the fever was.

I hope he will do so. Lu Hayes seems to hold his own generally. but suffers much pain from the burns.

Yours
M. J. Smyth

Bangalore
4-8-04.

3

Dear Sir. Krishna Murthi

Please see the enclosed letter from Col. Smyth. There is a case of Plague in the Imperial Service Lines and Col. Smyth has just received report of another.

I think it would be well to erect 2 or 3 permanent segregation Sheds of the description he proposes.

It is rather hard on the poor people who get ill, to put them out in a tent in this weather.

May I ask the Executive Engineer to erect the Sheds?

yours Sincerely

Sd. R. G. Jones

4

My dear Whitely

Would you kindly arrange for the erection of a couple of segregation sheds for plague stricken women.

The sheds to be of the same pattern as the Isolation sheds in the Mahadi camp.

I have written to the Dewan for permission and as Smyth recommends it.

I am sure he will agree to write to you at once to save time.

Yours sincerely
(Sd) R.G. Jones

TO THE DEWAN OF MYSORE

FOR ORDERS.

No 131
Ex 2

DATED Bangalore 14 February 1905

SUBJECT.

Persons of a nomadic type visiting the Lines.

I submit the correspondence on the above subject for your information. Thank him & ask him to get the Dewan's opinion

I think that the admission of single individuals to the Lines is a matter which may be left entirely to the discretion of the Officer commanding the Regiment, subject to the your approval of the Chief Commandant in cases such as that referred to by Col Smyth when actors, players or parties in large numbers require admission.

The orders regarding admission should be published Regimentally but before issue should and be carefully scrutinized by him to prevent their being made the means of oppression and unnecessary interference with the privacy of the

out by the Public Works Department.

No provision was made in the Estimate for supervision tools and plant &c.

It was only when the amount of the estimate became due and the money really paid that the claim was preferred.

The matter was referred to the Comptroller for opinion That Officer while admitting the claim to be correct suggested that if I am satisfied that the Fund from which the original amount of the estimate was met is quite unable to meet this additional charge I may propose a special exemption I have ascertained from Chief Commandant that he has absolutely no funds to meet the additional charge.

I therefore propose with your permission to apply through the General Secretary for exemption.

Lt. Col
Military Assistant.

Sir,

With regard to the late of occurrence of Sporadic Plague in the Imperial Service Regiment, I have the honor to report that the Health Officer informs me that there were 2 cases of Plague near the residence of some of the members of the dramatic troup that used to visit Mr. Subbaraj Urs. At the same time the Health Officer doubts that the infection was brought to the lines by the players in question. I think however, it is right that you should know the facts, and it might be worth considering whether it is advisable that persons of a nomadic type like these players should visit the lines unless their exact addresses were well known and proved to be free from Plague.

W.Mc Hutchin Esquire,M.I.C.E.,

Chief Engineer of Mysore.

To,

Lt.Colonel R.G.Jones,I.A.,

Military Assistant to the Government

of H.H.the Maharajah of Mysore.

Sir,

I have the honor to acknowledge receipt of your letter No.2848 dated 28nd February 1905 stating that the Executive Engineer,Bangalore Division has submitted a supplemental bill amounting to Rs.105 on account of charges for Establishment and tools and plant in connection with the construction of Plague Sheds for the Imperial Service Regiment at Bangalore and request -ing that your Department be exempted from the above charges as the work was given out on contract and no cost for supervi- -sion &c was incurred by the Executive Engineer.

2. In reply,I have to inform you that the "Establishment" and "Tools and Plant" charges demanded by the Executive Engineer are in accordance with the standing orders of Government on the subject and there is no reason why the Military Department should not bear them.It is immaterial whether the work was carried out on contract or by departmental agency and I therefore request you to be good enough to have the supplemental estimate amount placed at the disposal of this ~~Division~~ Department.

I have the honor to be,

Sir,

Your most obedient servant,

W. Hutchin Captain R.E.

Deputy Chief Engineer of Mysore

No 3388/Sm:1 0715-4-05

No. F.33, 04-05.

From

Lieut.Colonel E.G.Jones I.A. SECTION Mobly

Military Assistant to the Govt of [illegible] FILE No. 33/04-05

To SER No 26

Rai N.G.Basu Bahdur M.A.

Comptroller to the Go[illegible]

Sir,

I have the honor to enclose for your information copies of the correspondence noted in the margin.

lly Asst's No 2848 d/ 28-8-05 ief Engineer's No 2272 d/ 1-4-05

The facts are as follow:-

Govt ordered the construction of certain plague sheds for the Imperial Service Regiment and as no funds were available the Chief Commandant made an offer to meet the cost from the Stable Fund which Govt accepted and the Chief Engineer was asked to carry out the work which was accordingly done and the cost paid by book adjustment.

The Chief Engineer now claims on behalf of his Dept a sum of Rs 10b/- on account of establishment and other charges in accordance with the Standing Orders of Govt on the subject.

I cannot see what object is gained in such an arrangement as it will benefit Govt in no way to take the money from one Dept and pay it into another. The simpler way in my opinion would be for the Chief Engineer to make a note in his annual report of the proportion of work done by the P.W.D. for each Dept if necessary taking credit ~~in~~ that report from each for his share of establishment and other charges.

I should like you to give the above matter your kind consideration and favor me with your opinion as I propose if you agree with me to move Govt to cancel the Standing Order referred to above.

I should note that the present practice makes Departments arrange Departmentally for construction of works to save this extra cost charged for tools etc and as the P.W.D. nearly always give their work out on contract there is no real loss in tools or wear and tear.

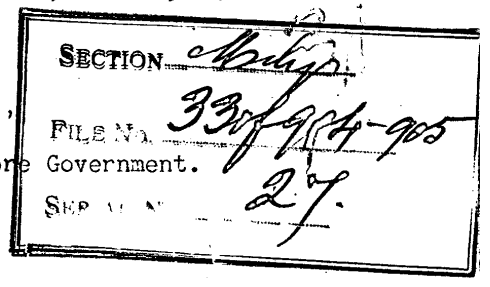
I.

2-5-05

No. 6278
A.C. 1456.

Office of the Comptroller, Mysore Government,

Dated Bangalore, the 2nd May 1905.



From

Rai. N.G. Basu Bahadur, M.A.,

Comptroller, Mysore Government.

To

Lt. Col. R.G. Jones,

Military Assistant to the Government of Mysore.

Sir,

I have the honour to acknowledge the receipt of your letter No. 3388/F.33 dated the 15th April 1905 regarding the appropriateness of the charge for Tools and Plant in the case of works met out of the Stable Fund.

The percentage for establishment, Tools and Plant in the case of public works executed through Government Agency is ~~made~~ charged to arrive at the true approximate cost of the work. In case of works done by private agency the cost charged includes an allowance for Tools and Plant and every thing, in addition to a margin of profit. In the case of works done by Government Agency, no profit is charged but only the actual cost this actual cost being determined on the basis of an average of the usual ratio of establishment Tools and Plant to the other expenditure of the department.

The method above described is followed almost universally in allocating public works charges and you are no doubt aware that when any Military Works are entrusted to the Civil Works Department in British India the latter is allowed to charge the former the usual percentage for Tools, Plants and Establishment.

I am therefore of opinion that it is not desirable to move Government to cancel the Standing order regarding the charge for Tools and Plant.

If it is proved that in the particular case under consi-

consideration no Government Tools and Plant were used but it was done by independent contract, then there may be a case for a special exemption but even so, there is some difficulty, because as I have said above, the percentage is based on an average of actuals only which average included both work done departmentally and on contract.

On the whole, therefore, I would venture to recommend that you need not propose any special exemption unless you are satisfied that the ; quite unable to meet the additional charge.

I have the honour to be,

Sir,

Your most obedient servant,

Comptroller.
